ROADSHOW EXPERT

FURNITURE
CATALOG

A TURNKEY SERVICE

At Choup's, we are dedicated to simplifying and enhancing your RoadShow experiences. That's why we are thrilled to introduce our brand-new furniture catalog, designed to complement and elevate your tours.

We understand how important it is to create a welcoming and functional space during your events. Whether you're looking to set up a warm reception area, an interactive demonstration zone, or a cozy relaxation corner, our selection of furniture is crafted to meet all your needs.

In addition to our promotional materials catalog, this new service strengthens our commitment to providing you with a turnkey solution. By reserving one of our RoadShow vehicles, you now have access to a wide range of options to bring your vision to life.

Our goal is simple : to let you focus on what matters most — your message and your clients — while we take care of everything else.

We hope this catalog will inspire you to bring your projects to life. The entire Choup's team is here to help you choose the best solutions for your events.

♦ Our pricing system is tailored to offer clear and flexible options. You'll notice that pricing is categorized by letters, which vary depending on the type of furniture. For instance, a chair with a category "A" may not have the same price as a table with the same category. This allows you to find pieces that fit your budget without compromising on quality. Category "A" represents our most cost-effective items, while "F" is for our high-end, premium selections. Each piece in our catalog is named after a city, reflecting the international scope of our operations. They represent the countries where we proudly operated impactful roadshows.
